

User & Host Public Profile System Guide

A comprehensive guide explaining public profiles, trust badges, hosted listings, reviews, and editing capabilities.

1. Overview of the Profile System

Trust is the cornerstone of RoamMeet. The profile system ensures every traveler and host has a credible, verified presence on the platform:

PUBLIC PROFILE (/profile/[id])	
IDENTITY & TRUST	ABOUT & EXPERIENCES
• Avatar & Verified Badge • Full Name & City/Country • KYC Verification Tier (1-4) • Rating (★ 4.96) & Reviews • Socials (Instagram/LinkedIn) • Action: "Message Host"	• Traveler / Host Bio • Languages & Response Time • Hosted Stays & Meetups Grid • Verified Guest Reviews

2. Key Features of Public Profiles (/profile/[id])

1. Identity & Trust Verification

- **Avatar & Name:** High-resolution user photo with a green verified checkmark.
- **KYC Verification Tier Badges:**
 - **Tier 1:** Phone / Email Verified
 - **Tier 2:** Selfie Liveness Verified
 - **Tier 3:** Gold Verified (Government ID: Aadhaar / Passport / DL)
 - **Tier 4:** SuperHost & Certified Guide
- **Trust Checklist:** Clearly shows verified status for phone, selfie, and government ID, reassuring travelers before booking.
- **Rating & Experience:** Displays average star rating, total review count, and member since date.
- **Social Links:** Direct links to Instagram and LinkedIn to demonstrate authentic social presence.

2. Hosted Experiences & Stays Showcase

- Displays all active listings published by this host.
- Each card includes cover photo, category badge, location, price per night or per person, and a direct link to view or book.

3. Community Testimonials & Reviews

- Verified reviews from guests who completed stays with this host.
- Displays guest photo, name, star rating, stay date, and written feedback.

4. Direct In-App Messaging

- Tapping “**Message [Name]**” starts an instant conversation in `/messages`.
- The Anti-Bypass Contact Guardian ensures personal contact details remain protected until a reservation is confirmed.

3. Personal Profile & Editing (`/profile`)

- When the logged-in user visits `/profile`, they are taken to their own profile with full editing capabilities.
- “**Edit My Profile**” Modal:
 - Full Name
 - Avatar Image URL
 - City & Country
 - About Me (Bio & Travel Style)
 - Phone Number
 - Instagram Handle & LinkedIn Profile
- **Instant Cloud Sync:** Saving changes updates both the active session and the Supabase profiles database table in real time.
- **Direct KYC Link:** Quick button to `/profile/verification` to submit IDs or selfies for badge upgrades.

4. Cross-Platform Linking

Connected Throughout RoamMeet

- **Explore Listings (`/listings/[id]`):** Tapping the host card opens `/profile/[hostId]`.
- **In-App Chat (`/messages`):** Tapping the contact's name or avatar in the header opens their profile.
- **Traveler Hub (`/trips`):** Tapping the host on any trip card opens their profile.
- **Host Hub (`/host/dashboard`):** Tapping an applicant traveler on any booking request opens their profile.
- **Navbar:** Tapping your user badge opens your own profile at `/profile`.
