1. Can You Change the Brand Name or Features After Backend Setup?

Yes, 100%! You can change the name anytime. We specifically designed the architecture with a **Single Source of Truth** so you are never locked in.

The entire platform's brand name, taglines, logos, micro-fees (\$1/₹79), and categories are centralized in one single file: `src/config/site.ts`.

- When you and your partner finalize your official brand name (e.g. *VibeTrek*, *TravelMate*, *WanderLust*, etc.), we simply change name: "NewName" in that one file.
- It automatically updates everywhere across the website: Navbar, Footer, Page titles, Google SEO tags, Chat headers, and Email templates in under **10 seconds**.
- The backend database schemas and logic are built generically with user IDs and category IDs, so changing the brand name does not break any database data or user accounts!

2. What Will the Link Be When We Launch Stage 1?

Launch Option	What People See	Cost & Setup Details
Option A: 100% Free Subdomain (Immediate Launch)	https://roammeet.vercel.app (or your chosen project name)	\$0 / month (Free forever) - Free automatic SSL security certificate (HTTPS) - Ready in literally 2 minutes via <code>npx vercel</code> - Great for beta testing with friends, family & early users
Option B: Custom Professional Domain (.com / .in)	https://www.yourbrand.com (or .in / .org)	- Domain purchase: ~\$10 – \$12 / year (approx ₹800 – ₹1,000/yr on Namecheap or Cloudflare) \$0 fee to connect to Vercel (Vercel allows unlimited custom domains on its free tier) - Gives 100% professional credibility for public marketing

3. Summary & Recommendation for You & Your Partner

Stage 1 (Initial Beta Launch)

Launch for free on <https://yourname.vercel.app>. You can start sharing it with real travelers and test your flat \$1 / ₹79 booking system without spending a single rupee.

Stage 2 (Official Public Launch)

Once you finalize your permanent brand name, register the matching .com or .in domain for ~\$10/yr and link it to your existing Vercel project in 2 minutes.
